PROFESSIONAL SUMMARY

Data & AI Engineer with 1.5+ years of experience building data-driven, AI-enabled, and cloud-based solutions across healthcare, life sciences, and enterprise use cases. Experienced in Python, SQL, PySpark, Databricks, AWS, Azure, ETL/ELT, data pipelines, APIs, databases, analytics, and Generative AI. Hands-on experience across data engineering, analytics, solution design, development, testing, and deployment, with a strong focus on building scalable data and AI solutions.

WORK EXPERIENCE

Full Stack AI Engineer, Tata Consultancy Services Feb 2026 - Present

- Develop data-driven and AI-enabled technology solutions for **healthcare and life sciences clients**, working across requirements analysis, solution design, development, testing, and implementation.
- Build backend services, **REST APIs, data flows, and ETL/ELT pipelines** using Python, FastAPI, SQL, Azure, and relational/non-relational databases.
- Develop rapid POCs to translate business problems into working technology solutions involving **data processing, document intelligence, information retrieval, and AI workflows**.
- Design integrations across databases, cloud services, AI services, and application components to support scalable end-to-end workflows.
- Collaborate with senior engineers and stakeholders to evaluate technical approaches, troubleshoot implementation challenges, and refine solutions based on requirements and feedback.

Founding Product & AI Engineer, Vibelets Feb 2025 - Feb 2026

- Architected and developed a **6–7 agent marketing intelligence platform** using Python, FastAPI, Google ADK, A2A, and LLMs to automate research, content generation, monitoring, and optimization workflows.
- Built backend and data components using **PostgreSQL, MongoDB, InfluxDB, Redis, AWS EC2, and AWS S3**, supporting data-intensive application workflows.
- Integrated **10+ external platforms** through APIs, connecting application services, data sources, and automated workflows.
- Worked with founders and stakeholders to define technical requirements, evaluate solutions, and deliver product capabilities through iterative development.
- Supported **15–20 beta users across 2–3 teams** and delivered **5+ client demonstrations**.

PROJECTS

Healthcare Decision Intelligence Platform

Python, SQL, FastAPI, LLMs, RAG, Vector Database, Power BI

- Developed an AI-enabled healthcare platform combining **data processing, document intelligence, semantic retrieval, and analytics** to support automated medical-record analysis.
- Implemented data and retrieval pipelines to transform unstructured healthcare information into contextual insights for decision-support workflows.

Credit Risk Analytics & ETL Pipeline

Python, SQL, ETL, Power BI, Data Analysis

- Developed an end-to-end **credit risk pipeline** on Databricks using **Medallion Architecture** across Bronze, Silver, and Gold layers.
- Built Python-based **ETL workflows** for data ingestion, transformation, cleansing, and validation of banking data.
- Developed **Power BI dashboards** and analytical models to track credit-risk metrics and portfolio insights.

EDUCATION

Manipal University Jaipur, Bachelor of Technology Aug 2021 - Jul 2025

Major: Computer Science and Engineering | **Minor**: Data Analytics | **CGPA**: 8.18/10.0

SKILLS

Programming & Data: Python, SQL, Pandas, Data Processing, Data Analysis, Excel
Data Engineering: ETL/ELT, Data Pipelines, Data Transformation, Data Quality, Data Modeling, REST APIs
Databases: PostgreSQL, MongoDB, Redis, InfluxDB
Cloud & Tools: AWS (EC2, S3), Microsoft Azure, Azure OpenAI, Azure Functions, Azure Blob Storage, Git/GitHub
AI & Analytics: Generative AI, LLMs, RAG, Multi-Agent Systems, Machine Learning, Vector Search, Power BI, Tableau

LEADERSHIP EXPERIENCE

General Secretary, IEEE SB MUJ May 2023 - May 2024

- Led a 1,000+ member community, organizing 25+ cross-domain events and driving engagement through student-led initiatives.

Convenor, Techstars Google for Startups Startup Weekend Jaipur Mar 2023 - Oct 2023

- Led end-to-end execution of a city-level startup event with 100+ volunteers, coordinating stakeholders, mentors, and operations.

AWARDS

Performance Excellence Award, Adsparkx Media | 2x Student Excellence Award, School of Computer Science and Engineering, Manipal University Jaipur | Winner - Designathon, School of Computer Science and Engineering, Manipal University Jaipur | Silver Certificate, Technothlon, IIT Guwahati | JK Pal Memorial Award, IEEE Delhi Section

CERTIFICATIONS

Google Data Analytics Professional Certificate | IBM SQL for Data Science with Python | Multi AI Agent Systems with crewAI | HackerRank SQL Gold Badge | PwC Analytics Launchpad
